REGISTRAR GENERAL

This note is to implement the DCMS portal webpage in regard with assessment and collecting data from District Courts through respective CPC (Central Project Coordinator).

As per the directions of Hon'ble Chief Justice of India, the statistics regarding pendency of civil and criminal cases and their disposal is available on the portal page of NJDG but a mechanism is not existing whereby a portal from where work done on daily basis could be accessed. Hon'ble Chief Justice of India has been pleased to direct that an online portal be established so that each court in the country can feed daily work done in regard to access the quantitative and qualitative performance of each judicial officer. Pursuant to the directions, District Court Management System has been developed in order to access the performance of each judicial officer on daily basis with an objective to monitor the progress of case. It is needless to mention that the DCMS would require proper inflow of assessable data from each District Court and require information to be cross checked from the NJDG statistics so that it can be placed before Hon'ble the Chief Justice of India from time to time basis.

The information required to be furnished on daily basis includes total cases fixed, cases fixed for evidence, witnesses examined in civil and criminal cases, arguments heard / part heard and disposal of miscellaneous applications as well as main cases being contested or uncontested. The

further expansion of data require on regular basis would be intimated as and when it is incorporated in the software and as per the directions.

The detail scheme in which DCMS would work is annexed below and broadly will cover following stages :-

1. Launch of website <https://dcms.sci.gov.in/>
2. Creation of user account for all District Courts through concerned CPC's.
3. Ensuring that each District Court is able to enter data properly in the required format.
4. Extracting quantitative and qualitative data/Charts to put up before Hon'ble Chief Justice of India
5. Reporting views of Hon'ble Chief Justice of India on respective reports.

District Courts Monitoring System

As envisioned by Hon'ble Chief Justice of India, a monitoring system named as *District Courts Monitoring System*, a web based application, has been developed in order to assess the performance of each judicial officer on daily basis. The major object of such scheme is to reduce the pendency of more than 2.79 crores cases (as on 27/10/2018) pending in various District Courts through out India.

Learned Principal District & Sessions Judges/District & Sessions Judges through out India are required to supply requisite information about work done in the judicial courts working under them and to assess the "quantitative & qualitative" performance of each judicial officer, on daily basis. These assessment reports will be analyzed by Team DCMS in the light of information available on NJDG and to present report on the performance of each judicial officer before Hon'ble Chief Justice of India.

Note: The data entered under DCMS shall be in conformity with NJDG data and there shall be no conflict whatsoever.

4. After entering the login ID credentials, click setting button on top button and then “Add Judicial Officer” button.

Please enter the names of Judicial Officers working in the District and Sub-divisions/Taluka without any salutation with designation in short form, like ‘CJM’ or ‘CMM’ for Chief Judicial Magistrate or Chief Metropolitan Magistrate, ‘JM1C’ or ‘MM’ for Judicial Magistrate 1st Class or Metropolitan Magistrate etcetera. These names can be updated at any point of time.

5. **Important Note: Only one login ID credential will be created for each district. Such login ID credential shall be shared with every court of that particular district. The Presiding Officer of each court shall fill the requisite information regarding quantity of work done and save the same as draft by clicking the button "SAVE AS DRAFT". After getting such information from each court, the assessment of such work shall be done by learned Principal District & Sessions Judge/District & Sessions Judge before finally submitting it.**

6. Initially, two modules are being introduced with regard to number of witnesses examined and cases disposed of in each court on a particular day. In order to assess work sheet, please press "Menu" button on top pannel, as shown below:

Select Date: 27-10-2018

WORKDONE STATEMENT OF DISTRICT: PATIALA, State: Punjab For: 27-10-2018

S.No	Name of the Officer	Total Cases Filed	Cases Filed For Evidence Civil	Cases Filed For Evidence Criminal	Witnesses Examined Civil	Witnesses Examined Criminal	Arguments Heard/Not Heard	Disposal Interlocutory	Disposal Main Uncontacted	Disposal Main Contacted	Remarks
1	Sandeep Berry B.S. Present -										Very Good
2	Komaljit Lamba ADJ										Satisfactory

7. Learned Principal District & Sessions Judges/District & Sessions Judges are required to assess the “quantitative and qualitative” assessment of work done by each judicial officer and to grade such performance of each judicial officer being Excellent, Very Good, Good, Satisfactory and Poor. In case of any judicial officer being on leave or not holding court, for any reason, the requisite boxes have to be left blank.

8. For **QUANTITATIVE ASSESSMENT** by learned District & Sessions Judges, the following criteria has been fixed:

FOR SUBORDINATE COURTS

a) EXCELLENT:

- 8 to 10 or more witnesses examined;
- disposal of two miscellaneous applications; and
- disposal of two contested cases on merits.

b) VERY GOOD:

- 6 to 8 witnesses examined;
- disposal of two miscellaneous applications; and
- disposal of one contested case on merits.

c) GOOD:

- 4 to 6 witnesses examined;
- disposal of one miscellaneous application; and

- disposal of one contested case on merits.

d) SATISFACTORY:

- 1 to 4 witnesses examined; and
- disposal of one miscellaneous application or disposal of one contested case on merits.

e) POOR:

- 0 witness examined;
- 0 disposal of miscellaneous application; and
- 0 disposal of contested case on merits.

FOR APPELLATE COURTS

◦ EXCELLENT:

- 4 to 6 or more witnesses examined;
- disposal of two miscellaneous applications; and
- disposal of one contested case on merits.

◦ VERY GOOD:

- 2 to 3 witnesses examined;
- disposal of one miscellaneous application; and
- disposal of one contested case on merits.

◦ GOOD:

- 1 witness examined;

- disposal of one miscellaneous application or disposal of one contested case on merits.
- SATISFACTORY:
 - 0 witness examined; and
 - disposal of one miscellaneous application or disposal of one contested case on merits.
- POOR:
 - 0 witness examined;
 - 0 disposal of miscellaneous application; and
 - 0 disposal of contested case on merits.

9. Apart from such quantitative assessment, learned Principal District & Sessions Judges/District & Sessions Judges have to assess **QUALITATIVE ASSESSMENT** of each judicial officer as well. For example, a single material witness examined in a sessions trial or a criminal trial by spending whole court time cannot be equated with 8 to 10 formal witnesses examined in less duration of time.

10. Initially, such work statement has to be saved as draft and it can be updated at the time of final submission. The updation button is given in Menu at top panel.

Update Judicial Officer Worksheet Data

Select Date: 28 10 2018

Select Judicial officer: Kamraj Lamba ADJ

After final submission of data, the work statement cannot be updated. For any query or clarification, kindly write to us on email address dcms-sci@sci.nic.in.

Synopsis prepared by **TEAM DCMS**

DCMS

District Courts Monitoring System

Procedure for automatic account creation for entering data related to District Court's evaluation through respective CPCs.

1. Account for all district would be created automatically by the system (in deactivated state.)
2. A link for each district would be created and sent to their respective CPC's. This link is for account activation. A link so created would be used for one time. The link would be executed by the respective District Courts only.
3. Upon clicking the link, the district users will be prompted for : Name, Mobile number and E-mail. Upon submitting their details, the password would be sent via SMS and E-Mail.
4. **Login Id would be mobile number or email id as entered above (interchangeably).**
