

Psycho- Social Support for Children in Madhya Pradesh

COVID 19 has affected the entire world – lockout, loss, separation, suffering and death. The 2nd wave was harsher than the first one, where in large numbers of younger generation have been infected. People all over the world are anxious and stressed out in so many ways. There so many questions and worries. Children have been most affected, and many of them infected. Unfortunately, COVID has left many children orphaned or single parented. Children, highly stressed and anxious, and are wary of the impending third wave. Hence the need for Mental Health and Psycho-Social Support Services is extremely critical.

A pool of trained counsellors across all the districts of Madhya Pradesh is ready to support them, to respond to children, calm their fears and anxieties, reduce their stress and engage them in meaningful activities. The counselors would reach out to children in CCIs and in communities, children admitted in fit facilities for temporary shelter, adult community members, front line workers and beneficiaries (children and family members) of CM COVID 19 Bal Kalyan Yojana.

For any specific cases wherein, counselors feel the need to involve experts, can reach to Ms. Archana Sahay (9425300572), Ms. Smita Shendye (91019105403) Mr. Amarjeet Singh (7000810345) and Dr. Kavita Jangam (9880496431) between 10 am & 5 pm from Monday to Saturday.

Child Care Institutions are recommended to make a dedicated phone available for children to make calls to Counsellors; and counselors are allowed to interact with children.
