

Health Services for Children with Disability

Dept. of Public Health and Medical Education, GoMP

Progress Update on Vimarsh 2023
03/08/2024

Presentation by :
Mr. Vivek Kumar Porwal (IAS)
Health Commissioner cum Principal Secretary ,
Department of Public Health & Medical Education,
GoMP

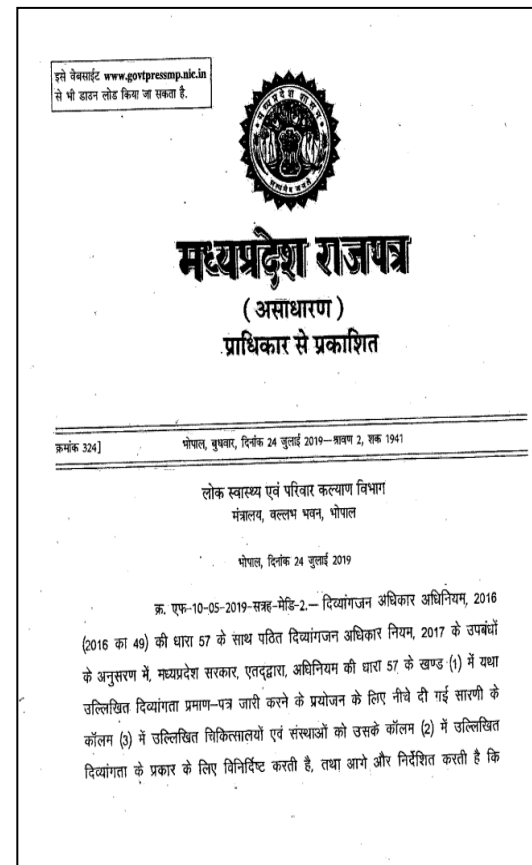

Certification and Assessment of Percentage of Disability

- **Issuance of Disability Certificates as per the Rights of Persons with Disabilities Act, 2016 and Rules, 2017 – through various District Medical Board.**
- **Coordinated disability screening camps are organized in facilitation with Dept. of Social Justice.**

Competent Certifying Authorities for Issuance of Certificate of Disability

Various certifying authorities authorized to issue Certificate of Disability in District Hospitals has been notified vide Gazette Notification dated 24th July, 2019

Recognized types of Disabilities	
1. Locomotor Disability	5. Mental Illness
2. Visual Impairment	6. Disability due to Chronic Neurological conditions
3. Hearing Impairment	7. Disability due to Blood Disorder
4. Intellectual Disability	8. Multiple Disabilities

First Appellate Authority – Regional Joint Director Health Services
Second Appellate Authority – Designated Director Health Services

Disability Prevention Services

- **Regular screening of defects, deformity and disability** is ensured at village level through RBSK teams under Rashtriya Bal Swasth Karyakram.
- **Early identification with referral for rehabilitative/curative measures** is ensured for preventing progression of disability.
- **Vit. A prophylaxis program** is ensured for prevention of visual disability due to VAD in children aged 6m – 59m.
- **Polio immunization** is ensured under Universal Immunization Program and Pulse Polio Campaigns for prevention of Locomotor disability in children under 5 years.
- **Identification of hearing impaired children** is ensured for preventing progression of hearing loss.
- **ASHA based field survey of paediatric leprosy suspects.**

Rehabilitative and Curative Services

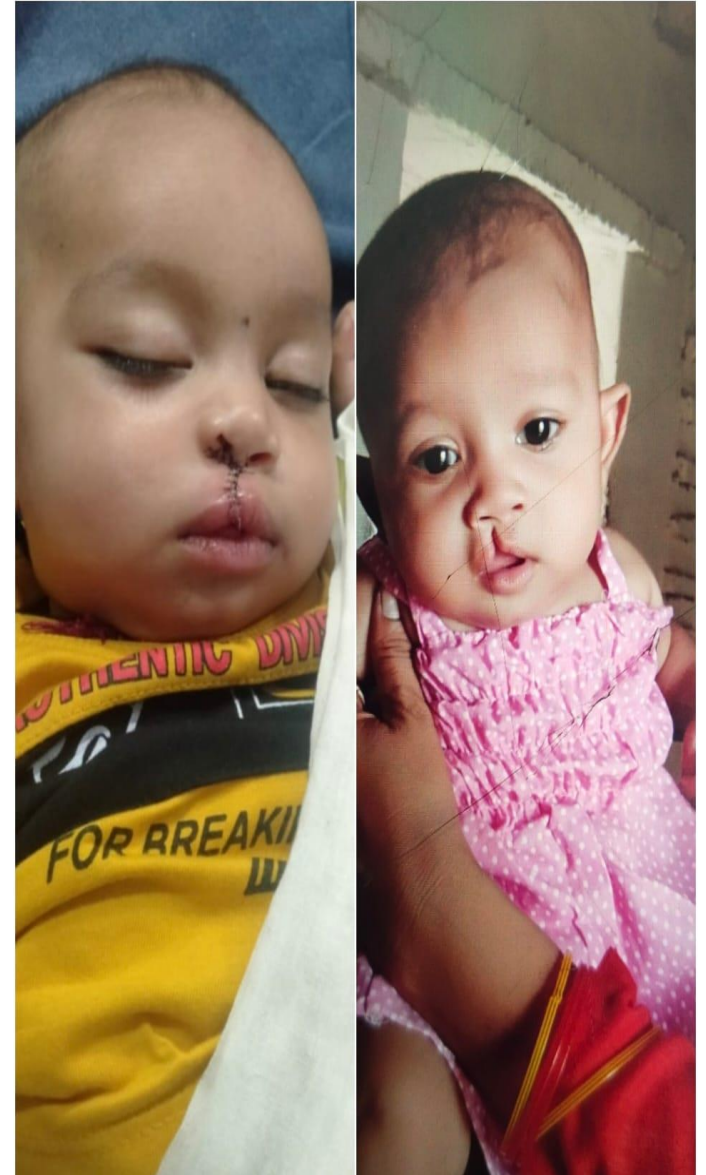

(Through Dist. Early Intervention Centers – DEIC and Medical College Hospitals)

Program	Health Mandate	Particular of Health Services	No. of Beneficiary Children with Disabilities in FY 2023-24
Hospital Administration	Disability Certificate for Children with Disabilities (CwD)	Issuance of Disability Certificate	19642

Defects and Disabilities Covered under RBSK

Defects	Disabilities
Neural Tube Defect	Vision Impairment
Down's Syndrome	Hearing Impairment
Cleft Lip and Cleft Palate	Neuro-motor Impairment
Talipes (Club foot)	Motor Delay
Developmental Dysplasia of Hip	Cognitive Delay
Congenital Cataract	Language Delay
Congenital Deafness	Behaviour Disorder (Autism)
Congenital Heart Disease	Learning Disorder
Retinopathy of Prematurity	Attention Deficit Hyperactive Disorder

Status of Services Provided under RBSK by Disorder Type

S. No.	Defect	Surgery	2023-24	April to June-24
1.	Neural Tube Defect	Spina Bifida Surgery	68	9
2.		Ventriculoperitoneal shunt for hydrocephalus	42	7
3.	Cleft Lip and Cleft Palate	Repair of Cleft Lip	530	84
		Correction of Cleft Palate	520	60
4.	Club Foot	Club Foot Surgery (Casting/Tenotomy and Bracing)	1871	2105
5.	Developmental Displacement of Hip	Pelvic Harness/Hip Spica/Closed Reduction and hip spica/Open Reduction with femoral osteotomy/Pelvic Support Osteotomy	16	5
6.	Congenital Cataract	Paediatric Cataract Surgery	266	39
7.	Congenital Deafness	Cochlear Implant Surgery	191	54
8.	Congenital Heart Disease	Various Surgeries for CHD	1386	197
9.	Retinopathy of Prematurity	Photocoagulation	57	14

Status of Services Provided under RBSK by Rehabilitative Services at DEIC

SN	Speciality	2023-24	Apr-24 to Jun-24
1.	Audiology	18,074	5920
2.	Optometrist	20,644	4884
3.	Dentist	62,047	15,997
4.	Psychologist	17,538	3,564
5.	Physiotherapist	28,478	7,409

Challenges

- **Budgetary provisions in DoSJ but procedural load on DoPH&ME - impedes seamless service delivery to CwD (Esp. Children with Hearing Disabilities).**
- **Inchoate policy regarding repair and replacement of the parts/processors for Cochlear Implants .**
- **Follow up of complimentary feeding in children with Cleft Lip/Cleft Palate.**
- **Follow up of school going children presenting as severe anemia due to underlying Hemoglobinopathy.**
- **Difficulty in identification of congenital birth defects in Antenatal period due to paucity of Radiologists and stay on CBE of trained Sonologists.**
