THE WORKLOAD CARRIED BY THE NON JUDICIAL STAFF **(THE STAFF - PENDENCY RATIO)**

STAFF - CASE RATIO

In the High Court

Total sanctioned strength of Officers and employees of the High Court is 1986 which includes 206 posts for Class-I and Class-II Officers, 1018 posts for Class-III and 762 posts for Class-IV employees. Considering the number of sections in the High Court, Class-II posts are not sufficient. Similarly in view of pendency of cases, Class-III posts meant for dealing with the files are found insufficient. Taking into account the number of Class-III employees working in Judicial Branch and pendency of **2,89,445** cases in the High Court, around **2000** cases are allotted to each Dealing Assistant, whereas as per the provision of Chapter XIV Rule 6 of The High Court of Madhya Pradesh Rules, 2008, maximum 1000 cases can be allotted to a Dealing Assistant. Therefore, sufficient number of additional posts in Class-III cadre are required.

In the Subordinate Court

In Subordinate Court the sanctioned strength of Class-III and Class IV employees is 18631 in which 12033 employees are working in the Class-III Cadre and 6598 are working in the Class-IV Cadre. The Class III staff includes Accountant, Statistical Writer, Nazir, Copyist, Execution Clerk, Stenographer, Reader, Deposition Writer, etc. Therefore, number of Class-III employees working as Reader, Execution Clerk, Deposition Writer is not sufficient because at present on an average around 750-1500 case files are being dealt by the Reader and execution clerk. It is very difficult for these employees to cope up with large number of files. This apart, these employees have to perform several other duties and works and such as maintaining different type of data pertaining to different types of cases, information pertaining to number of cases with regard to category of cases, such as offences against women, senior citizens, foreign national, under trials, POCSSO, NDPS and other administrative work. Therefore, sufficient employees are required to be posted in view of pendency of cases and recommendation of NCMS sub-Committee on Human Resource Strategy in this regard which reads as under :-

The court of the District Judge or Additional District Judge is partly trial court and partly appellate court, apart from exercising jurisdiction to deal with cases of adoption, guardianship, probate, etc. As the presiding Officer of the trial court, the Additional District & Sessions Judge will have to record the statements of witnesses in both civil suits and sessions cases, apart for hearing the criminal appeals, civil appeals and criminal revision applications. Accordingly, it would be extremely different to deal with more than 500 main cases with the assistance of the minimum unit staff. Thus, there is minimum requirement of two Bench Clerks, two Stenographers, two Group-D employees in every court of Additional District and Sessions Judge or special court dealing with 500 cases. There is need of additional requirement of staff namely Bench Clerk and Group-D employee for increase of every 250 cases in such type of courts. The special courts or the courts of Additional District and Sessions Judges accepting the filing of the cases need additional staff depending on the number of cases filed in such type of courts. The requirement may vary from additional three to five Clerks, one Date Entry Operator and two to three Group-D employees.

Apart from this, State Government has issued a circular, providing that retired employees may be appointed on Contract basis in the High Court and District Courts against the vacant posts and for appointment on such posts a Committee of Hon'ble Judges has already been constituted.
