11.	Page No. 62, 63 Table for RPFC item no. 7 & 8	item.  SECTION B (Table), Table for RPFC	Commissioner	PF &	The word RPFC has been replaced by table for court rooms/ sections.  (Option 1) (District Judge) Providing & fixing table having an overall size of (2000x1100x750) with top made of 36mm thick board pressed with 0.4mm thick membrane foil clad pressed with PU glue. The foil shall be Pre-coated with a layer of polyurethane for better scratch resistance. The main table shall have understructure having verticals made of 36mm thick post formed legs supported with 32(D) steel studs duly powder coated and modesty made of 18mm thick prelaminated particle board having decorative laminate on both side. Side Unit: Providing & Fixing side Unit having overall size

(1200x565x690)x 600mm without top & 1250mm with top made of 36mm thick board pressed with 0.4mm thick membrane foil clad pressed with PU glue. The foil shall pre-coated be with a layer of polyurethane for better Scratch resistance. Side unit shall have understructure having verticals made of 25mm thick post formed and made of 18mm thick prelaminated Particle board having decorative laminate.

Back Unit Providing & fixing Back Unit having overall size (3000x490x750) and top made of 36mm thick board pressed with 0.4mm thick membrane foil and pressed with PU glue. The foil shall be precoated with a layer of polyurethane for better scratch resistance. Storage unit of size 2550 x 500 x 714 shall have understructure having verticals

made of
18mm thick
prelaminated
particle with 2
open able shutter
storage and
drawer fascia in
membrane finish
and glass.

Table for RPFC (Option 2) (D.J.) Providing & Fixing angular table having an overall size of (2100 x 900 x 750) with made top of 36mm thick board Pressed with 0.4mm thick foil membrane clad pressed with PU glue. The foil shall be prewith coated а of layer polyurethane for better scratch Resistance, in 2 angular pieces. The main table shall have understructure having verticals made of 36mm thick post formed legs with modesty made of 18mm thick prelaminated particle board having decorative laminate on both sides. The table shall also have a Drawer Unit of Size 460 x 575 x 550 made up of drawer + 1 Filling 18mm prelaminated

particle board with Membrane fascia in inner steel.

Side Unit: Providing & Fixing Side Unit having overall size (1200 x550x714)x 750mm made of 35mm thick board pressed with 0.4mm thick membrane foil clad pressed with PU glue. The foil shall be pre-coated with a layer of polyurethane for better scratch resistance. Table shall have understructure made of 18mm thick prelaminated particleboard having decorative laminate on both sides. The side unit shall have open able shutter storage & drawer unit, with facia in membrane finish.

Back Unit Providing & Fixing Back Unit having overall size (2400x550x1200 (Ht) mm (750+450)with made top of 36mm thick board pressed with thick 0.4mm membrane foil clad pressed with PU glue. The
